THE RICHLINE COMPANY, INC.

New Generation Rivet Guns 1971

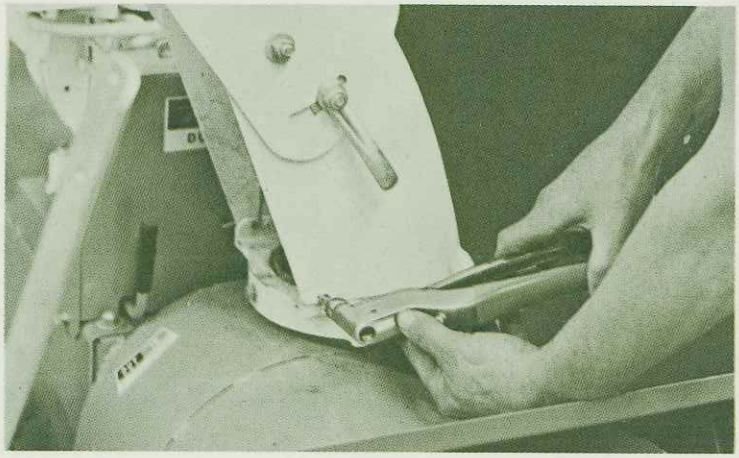
Recd. 1/5/72 dupl. in D8 boxes

Model 400

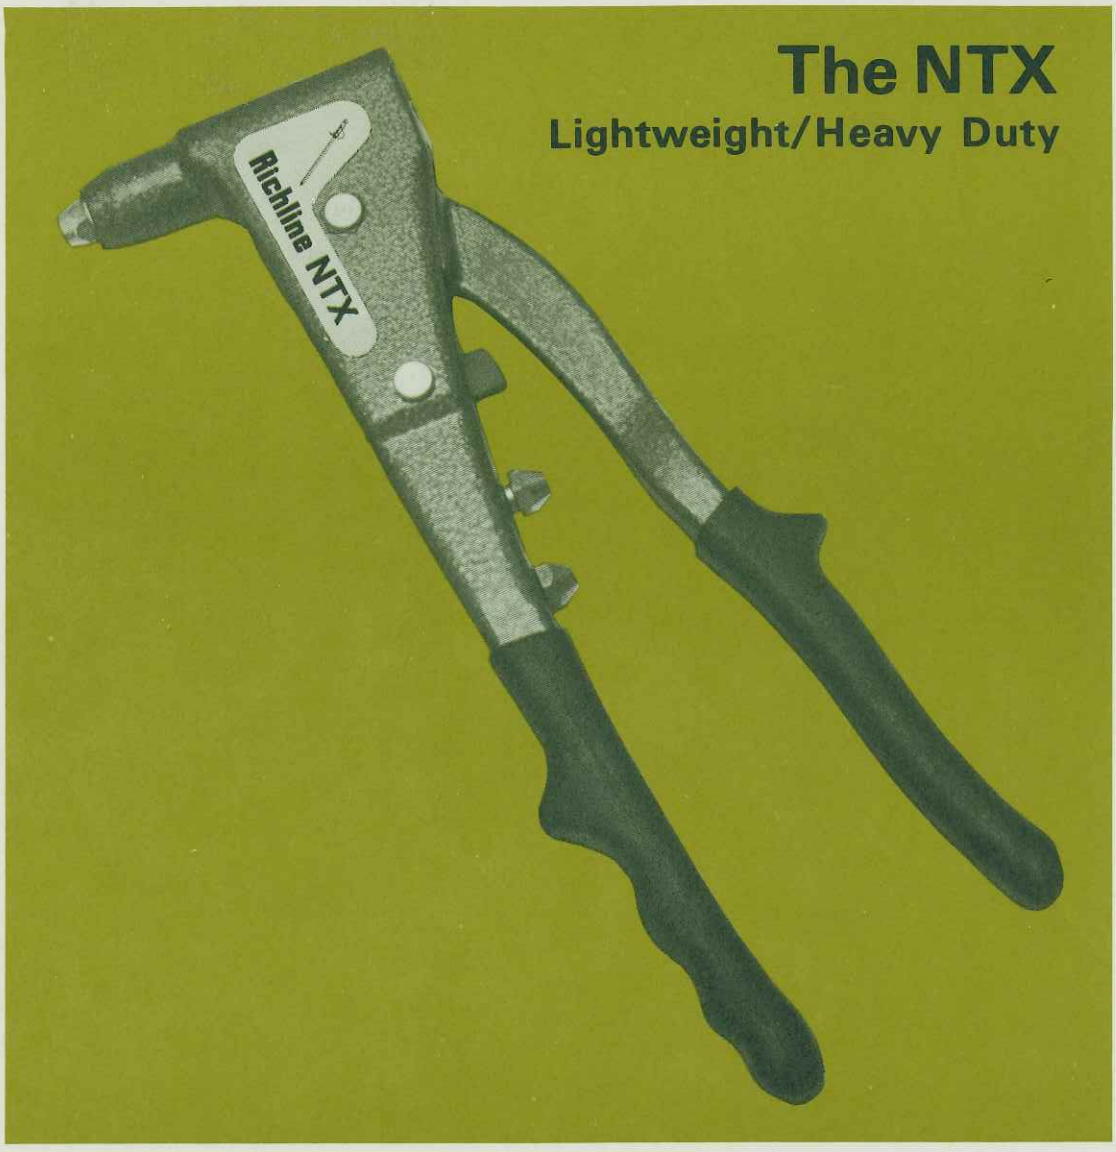
Streamlined Riveter

Narrow head profile and long, thin nozzle let you get into the most confined areas. One squeeze . . . and the rivet is set, with a spent mandrel ejecting automatically. Sets 3/32", 1/8", 5/32", 3/16", and 1/4" Snapo rivets. No need to get behind the work surface, operates on the blind rivet principle.

Light-weight aluminum construction. Spring loaded steel handle for automatic ejection of mandrel in one smooth, easy, one-handed operation. Super long life jaws fully warranted.



The NTX
Lightweight/Heavy Duty



A light-weight hand gun designed to reduce effort and shock when riveting. With one easy and efficient stroke, sets Snapo rivets with diameters of 3/32" to 1/4." This rugged heavy-duty hand riveter is ideal for snowmobile track replacement, body shops, plant maintenance or low volume production lines.

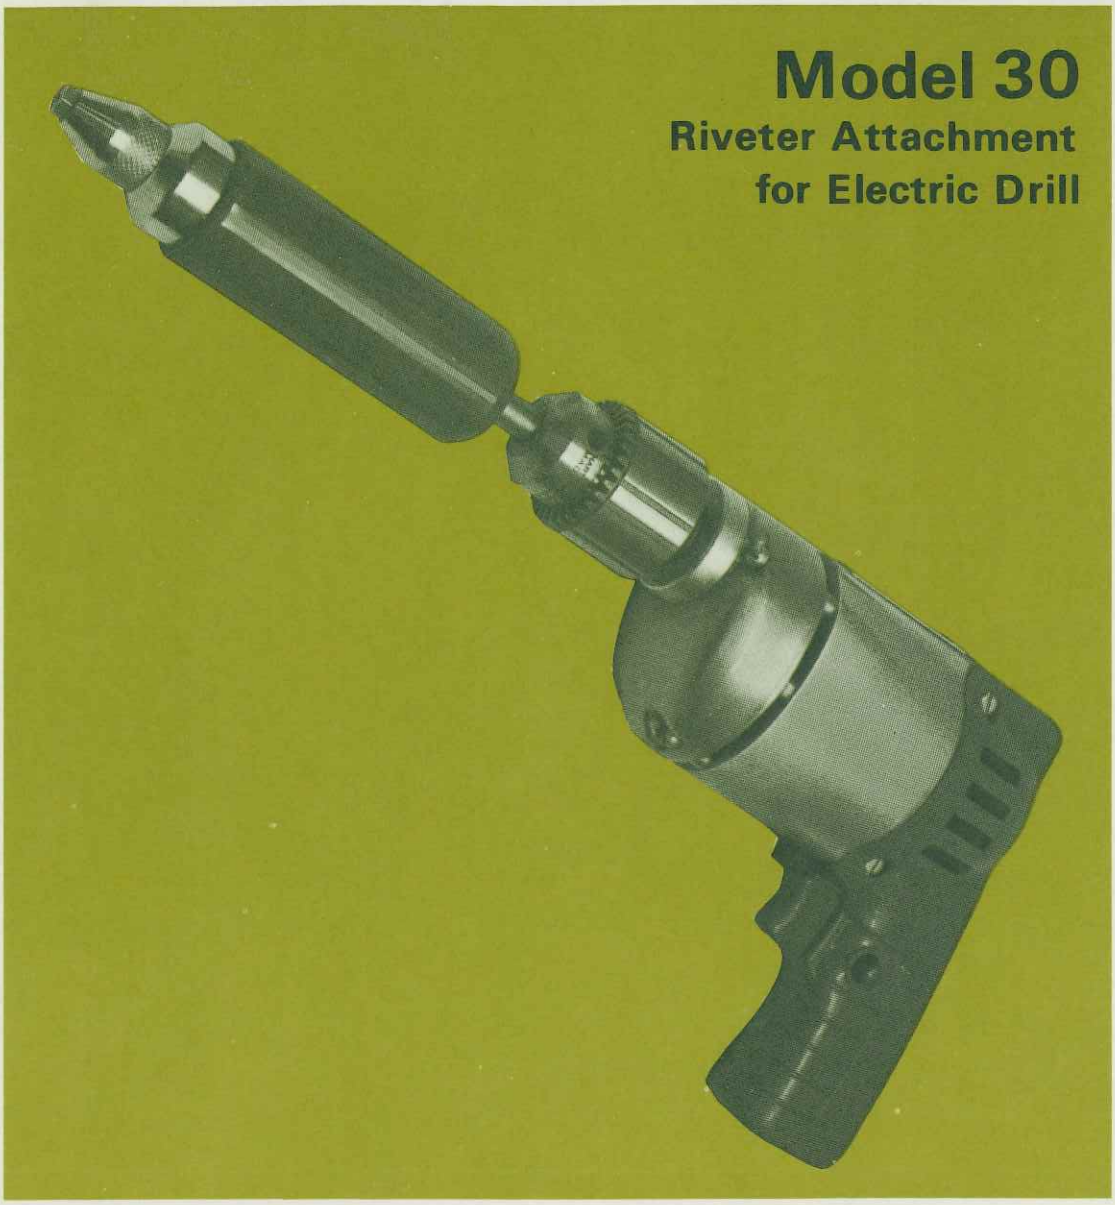
The NTX requires no adjustments or pivot pins. Heavy-duty design and first quality throughout, guarantees excellent usage – rivet after rivet. Unconditional guarantee.

Model 702
for Effortless Speed

Sets rivets twice as fast! Exhaustive tests have proven that Richline Model 702 sets rivets twice as fast – and with 25% less effort! Automatically regrips the mandrel for second grip when necessary and ejects the spent mandrel. Sets 3/32", 1/8", 5/32", 3/16", and 1/4" Snapo rivets. The only tool of its kind that can be operated easily with one hand.

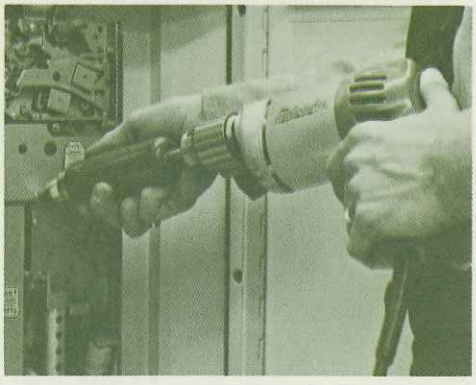
Model 702K kit includes the deluxe hand rivet gun and an assortment of Snapo rivets contained in a handy metal case.

Model 30
Riveter Attachment for Electric Drill



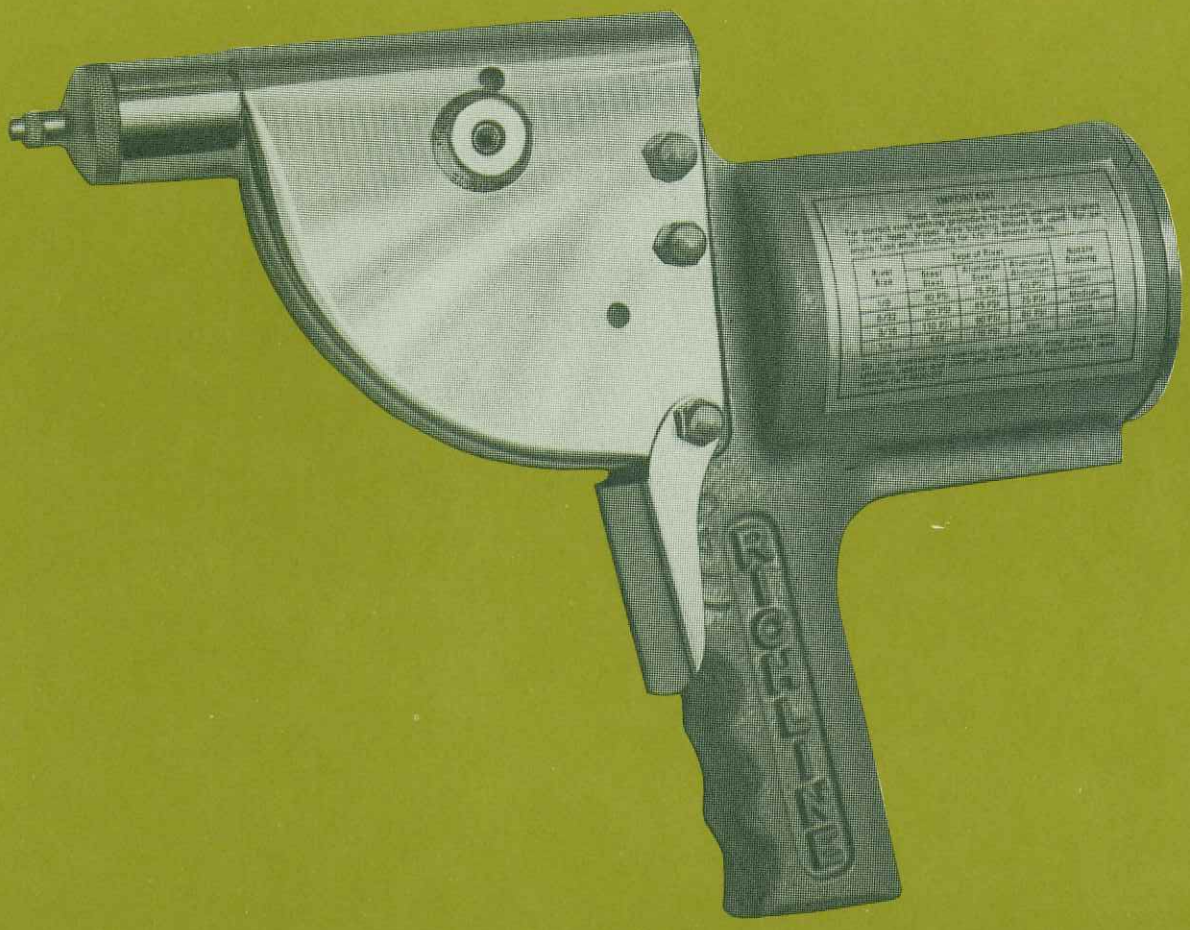
Blind riveting attachment for 3/8" heavy-duty electric drill. Converts any 3/8" or larger heavy-duty electric drill to a power blind rivet setting tool. Easy to operate, user holds Model 30 stationary to set rivet, releasing allows automatic ejection of spent mandrel. You are now ready for the next rivet.

Slim head designed for access to narrow work areas. Super long life jaws which are also interchangeable with the Model 400. Power riveting now wherever electricity is available.



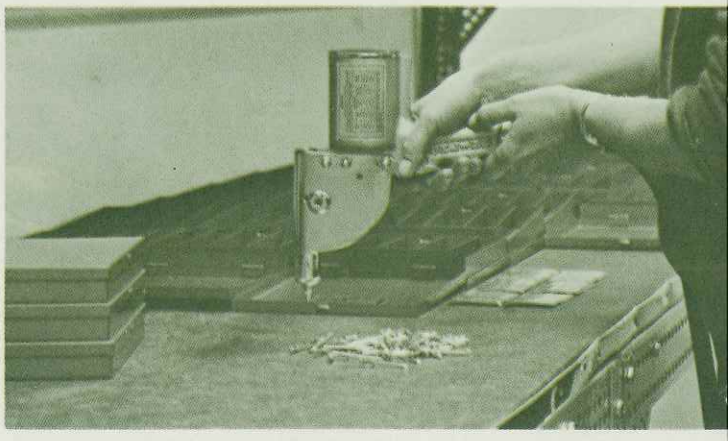
Model 8

Air Powered Riveter



Compact, light-weight power tool perfect for assembly line work or any quality application of Snapo rivets. Easy finger pressure of button switch provides fast, vibration-free action . . . gives volume production! Automatically regrips mandrel and ejects spent mandrel. Handles Snapo rivets 3/32", 1/8", 5/32", 3/16", and 1/4".

Quality precision construction; finished in polished chrome.



Model 7
"The Brutes"

Available in either the mini or the maxi. The "mini Brute" handles 3/32", 1/8", and 5/32" Snapo rivets. The "maxi Brute" handles all of the preceding plus 3/16" and 1/4" Snapo rivets. Both are simple and easy to operate and maintain on the job. From light assembly to fast moving production lines.

Both "Brutes" are ruggedly built to withstand operator abuse. Light and lively, the "Brutes" can be held easily with one hand or suspended near the work areas.
